

Aariyan Apu

Full Stack Developer | Assistant Accountant (Finance) | Admitted: M.Sc. EES, Bamberg

Finance professional with four and a half years at New Green Fashion, a garment manufacturer in Bangladesh, most recently as Assistant Accountant (Finance), responsible for production, order, delivery and sales reporting and for cost and income statement analysis. Bachelor of Business Administration in Finance and Banking (National University, CGPA 3.22/4.00). Part-time full-stack web development for businesses and NGOs since 2021. Admitted to the M.Sc. European Economic Studies at Otto-Friedrich-Universität Bamberg for winter semester 2026/27 to specialise in international economics and applied econometrics, with the goal of working as an economic analyst in Bangladesh's export sector.

Experience

Assistant Accountant (Finance) · [New Green Fashion](#)

Feb 2022 — Jun 2026

- Prepared daily, monthly and yearly production, order, delivery and sales reports for management.
- Analysed monthly, quarterly and yearly income statements and cost/income figures; prepared comparative statements.
- Advised management on export and import decisions based on financial and performance reporting.

Intern, MIS Department · [New Green Fashion](#)

May 2021 — Jan 2022

- Collected and compiled production, order and delivery data for daily and monthly management reports.
- Promoted to Assistant Accountant (Finance) in February 2022.

Web Application Developer · [Self-Employed](#)

Apr 2021 — Present · Part-time, Fri–Sat

- Built e-commerce and web projects for businesses and NGOs on days off, from requirements to deployment.
- Designed and maintained relational databases for transactional, inventory and financial records; built reporting and admin dashboards.
- Deployed and managed applications on AWS, VPS and Linux servers.

IT Support & Social Media Officer · [TPDO](#)

Jun 2019 — Feb 2021

- Provided technical support for all IT infrastructure across the organisation.
- Implemented IT policies and digital communication workflows for NGO operations.
- Managed the organisation's digital presence and social media outreach.

Selected Projects

First Aid Surgical · [firstaidsurgical.com](#)

Directed the frontend build of a multi-language e-commerce platform for medical equipment — i18n, a B2B quote request system, SEO and Core Web Vitals optimization. Next.js, TypeScript.

NonstopGG · [nonstopgg.com](#)

Led frontend development of a B2B digital gift card marketplace with 500+ products — product catalog UI, secure checkout flows, and a real-time inventory dashboard; automated delivery-cut fulfillment from hours to seconds. Next.js.

GBDC · [gbdcbd.org](#)

Community platform connecting blood donors with recipients across Bangladesh — real-time notifications, live chat, donor profiles; 3,000+ active users. Next.js, PostgreSQL.
